## BIOGRAPHY

The Redymix DMT brand is considered one of the most versatile and talented DJ entities in the Caribbean. Shomari KRL has made it his duty to share his musical talents with a growing regional and international audience. With his skills as a DJ and/or energetic MC, he has kept listeners and party goers entertained across the Caribbean region.

Growing up in Trincity, Trinidad and Tobago, music has always been a passion for Shomari. This passion has fuelled him to adopt the belief that every DJ set, mix or performance should always tell a profound story that resonates with and captivates the listener. He revels in the ability of making every performance memorable and ensuring both clients and patrons are left wanting more! His signature style has allowed him to gain popularity in many countries throughout the Caribbean region including St. Vincent and St. Lucia, Dominica while still maintaining a fan base in T&T. His mixes have also been gaining traction in the US and UK, as download statistics show heavy streaming in territories such as New York, Florida and London just to name a few. Although he has mastered the ability to mix a wide variety of musical genres (Soca, Calypso, Dancehall, Reggae, Hip Hop, Afrobeats, Pop & Top 40 Music) he is known across the Caribbean for his keen interest, advocacy and the promotion of Carnival culture and soca music from lesser known territories in the region. Even using his influences in the T&T Soca scene to endorse and promote music from these countries. This knowledge has given him a competitive edge and a unique sound in his performances, while allowing him to make linkages with many artistes from the islands. This coupled with his electrifying stage performances has made Shomari nothing short of a badass.

With over 18 years of experience in entertainment, Shomari's skill and experience have translated into many entertainment ecosystems across multiple Caribbean Countries. He was a DJ/Announcer on the radio frequency 96.1 WEFM (OJO World) in T&T for seven (7) years where he was part of the Sunday morning Radio show "The Hook Up" which became the #1 Morning show in the country on weekends. He also has had Radio appearances on Slam 100.5 and was the announcer who conceptualized, produced his own weekend Online Radio show on Scorch Radio TT. The brand Redymix DMT has also headlined Carnivals, Weekend Festivals and events on islands such as Barbados, St. Vincent & The Grenadines, St. Lucia, Dominica, Grenada, Antigua and more. The fervour to bring greater awareness to his "Caribbean Soca Ambassador" initiative also manifested in the production of multiple videos from Carnival bands and festivals in the region; the most notable being the "784 Vincy Tour" video, which was produced in 2015 highlighting SVG carnival. This documentary still airs on some regional television frequencies to this day.

With music and interactivity being the focal point, Shomari has a unique ability to blend new flavours with hits that have defined his and generations prior. The KRL in Shomari KRL is an acronym for "Konstantly Reaching Lives", and Shomari and the Redymix DMT brand strives to continue reaching out to the lives of this and future generations through music and stellar performances.
